SUMMARY

Hello I am a Full-Stack Developer in Colorado. I completed a Full-Stack development certification at the University of Denver and I am looking to join a developer team to improve my skills and gain new skills with others who love to code.

TECHNICAL SKILLS

Backend: MongoDB, MySQL, Express, Node

Frontend: HTML5, CSS, JavaScript, jQuery, React, Redux, Bootstrap, Chrome DevTools, Authentication, Axios

Deployment: Git, GitHub Pages, Heroku

PROJECTS

ProShop | Github: <https://github.com/tyhunt24/proshop> | Link: <https://proshop44343343.herokuapp.com>

- Full-Stack E-Commerce Site built using the MERN Stack. A client side page that shows our cart, a shipping page, and an order page. Also a Admin side where the admin can update when orders are shipped and create new orders for users to purchase.
- React, Redux, Bootstrap, Express, Node, MongoDB, Authentication, Axios, Heroku

DevConnector | Github: <https://github.com/tyhunt24/DevConnector> | Link: <https://shrouded-escarpment-80472.herokuapp.com>

- Full-Stack Social Media site built using the MERN Stack. It allows the user to create a profile, add posts, like posts, and add comments to other users posts.
- React, Redux, CSS, Express, Node, MongoDB, Authentication, Axios, Heroku

CampTracker | Github: <https://github.com/CodingwithJess/CampTracker> |
Link: <https://camp-tracker.herokuapp.com>

- Full-Stack Application used to find a campground to explore or write a review about a previous campground you have been to so others can see if they want to attend this campground.
- My goal of this application was to help build the backend and I had more of a Project Management role on this application.
- HandleBars, CSS, Express, MySQL, Node, Trello

EXPERIENCE

H&W Fumigation INC - Akron, Colorado | Service Worker, April 2016 - August 2019

- I walked 5-6 miles a day exterminating prairie dogs for the safety of cattle ranches.

Washington County Golf Course – Akron, Colorado | Maintenance Worker, April 2019 - August 2020

- I mowed the fairways and also helped change out broken sprinkler heads and put new ones in.

EDUCATION

Certificate in Full Stack Web Development: University of Denver, Denver, Co
